Purchasing Analyst

From Purchasing Regulation 720 R-A:

Emergency Purchases: An emergency is an occurrence of a serious and urgent nature that demands immediate action to protect personal safety, life, property, or to avoid termination of essential services that would cause a dangerous condition. In such cases, competition is not required. However, competition is encouraged if practicable. Additionally, buyers are responsible for obtaining a fair and reasonable price in emergency situations. A written justification establishing the basis for the emergency purchase and for the selection of the particular vendor, shall accompany the purchase requisition. FCPS shall issue a written notice stating that the contract is being awarded, or has been awarded on an emergency basis. This notice will be publicly posted in a designated public area for ten (10) calendar days, beginning the day of award or decision to award is announced, whichever occurs first. It should be noted that emergency situations do not consist of situations that result from lack of planning, neglect, or the potential loss of year-end funds.
